What changed in V5.0

DarriusAI - Inflection Hunter brings Price Inflection, Darrius Mutant and Market Pulse together for reviewing market structure. Use this guide with the current website interface.

CHANGE	CURRENT BEHAVIOR
Dashboard	Risk Copilot and its shield entry have been removed. Market Pulse, the main chart and other risk disclosures remain.
Ranking name	The ranking page is named Model Technical Rankings. It still displays up to 10 eligible stocks for the selected timeframe.
Ranking fields	The Confidence column has been removed from the ranking list. Other ranking fields remain.
Weekly rankings	1W joins 1H and 1D on both the ranking list and stock detail pages.
Language	Ranking Engine remains in English even when opened from a Chinese-language dashboard.

Dashboard navigation

Use the vertical rail on the right side of the dashboard. The four entries are:

ENTRY	PURPOSE
Market Pulse	View sentiment derived from the active chart.
Rank Engine	Open Model Technical Rankings, subject to account access.
Chart Controls	Choose a stock symbol and chart timeframe.
Account	Verify account access and view subscription controls.

Click an icon to display its panel. Share copies a chart link; Export exports the chart image. The language menu changes supported dashboard labels.

ENGLISH / 02

Charts and model signals

Three core systems

• **Price Inflection:** model signals identifying possible changes in price structure.

• **Darrius Mutant:** a view of trading momentum. Interpret its direction and changes together with price structure.

• **Market Pulse:** a chart-derived sentiment score from 0 to 100, with Bullish, Bearish and Neutral labels.

SIGNAL	LABEL	HOW TO READ IT
eB	Early Buy	Early bullish structural alert.
B	Buy	Bullish model confirmation.
eS	Early Sell	Early bearish structural alert.
S	Sell	Bearish model confirmation.

Signal names are model labels. A signal is not an instruction to trade and does not guarantee the next price movement.

Load a chart

1. Open **Chart Controls**.
2. Enter a symbol, such as TSLA, AAPL or NVDA.
3. Select a chart timeframe.
4. Click **Load Symbol**.

Chart timeframes: **5m, 15m, 30m, 1h, 4h, 1D, 1W and 1M**. Quick timeframe buttons are also available above the main chart, subject to account access.

Chart timeframe versus ranking timeframe

The dashboard supports eight chart timeframes. Ranking Engine supports three: **1H, 1D and 1W**. A chart timeframe selection does not automatically change a separate ranking page.

ENGLISH / 03

Model Technical Rankings

Open the Rank Engine panel and select **Open Rank Engine**. An eligible signed-in account is required by the dashboard entry. The page displays rankings from the **US_CORE_500** stock universe.

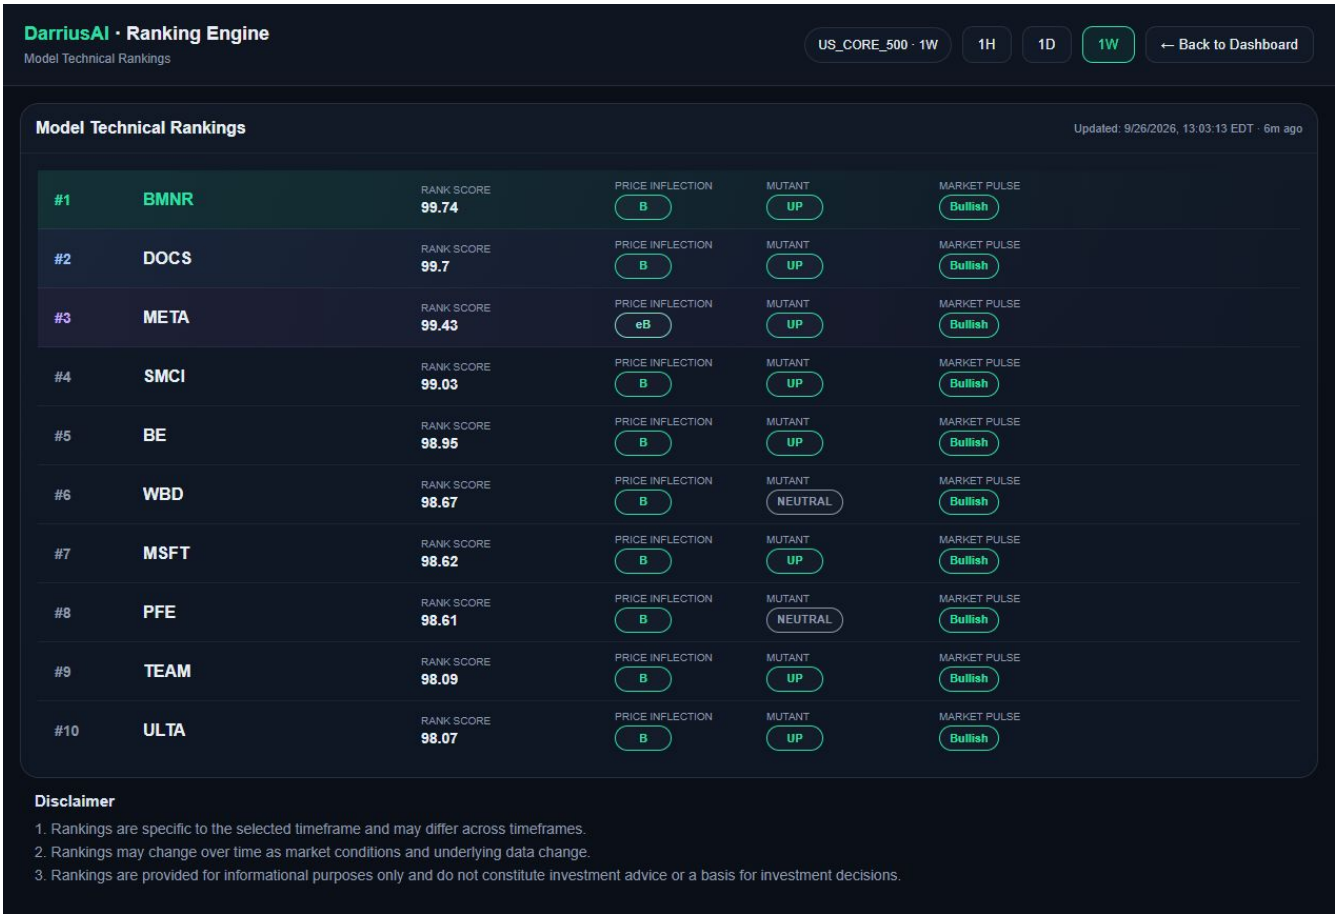

Figure 1. Live 1W ranking interface captured on September 26, 2026. Symbols and scores are illustrative snapshots and will change.

PERIOD	BAR INTERVAL	INTERPRETATION
1H	One hour	Intraday price structure.
1D	One trading day	Daily price structure.
1W	One week	Weekly price structure; the current weekly bar may still be developing.

Select 1H, 1D or 1W at the top. The highlighted button and US_CORE_500 label identify the selected timeframe. Each timeframe is calculated independently, so stocks, order, scores and signals can differ.

ENGLISH / 04

Read rankings and details

LIST FIELD	MEANING
Rank / #	Position among eligible stocks for the selected timeframe.
Symbol	Stock ticker. Click the row to open its details.
Rank Score	Composite model score used for ordering; not expected return or probability of profit.
Price Inflection	Current model signal: B, eB, eS, S or a neutral condition.
Mutant	Momentum state: UP, DOWN or NEUTRAL.
Market Pulse	Sentiment label: Bullish, Bearish or Neutral.

Stock details and returning to the list

Click a stock row to open details in the selected timeframe. The detail page offers 1H / 1D / 1W switching. **Back to Ranking** returns to the list in the timeframe currently selected on the detail page.

The list no longer displays Confidence. The detail page currently retains **Confidence Score** as a model consistency reference; it is not a probability of profit.

When rankings update

VIEW	SCHEDULED REFRESH
1H	Every 15 minutes during regular trading hours, starting 1 minute after open; final run 1 minute after close.
1D	Every 60 minutes during regular trading hours, starting 8 minutes after open; final run 8 minutes after close.
1W	Every trading day, 15 minutes after the exchange closes. This uses weekly bars, not a trailing seven-day return ranking.

Schedules follow the New York exchange session, including early closes and market holidays. Check **Updated** for the actual snapshot time. Processing or data availability can delay completion; weekend and holiday dates do not normally trigger refreshes.

ENGLISH / 05

Account access and plans

Email verification

1. Open the **Account** panel and enter your **User ID**.
2. Click **Send Verification Code**.
3. Check the email address already associated with your account.
4. Enter the six-digit code and click **Verify**.
5. Your active subscription or trial determines available features.

The verification request uses User ID to locate the email on file. Entering a different email in a visible account or checkout field does not redirect a sign-in code to that address.

> Codes expire after 10 minutes. Wait at least 60 seconds between requests; at most five requests per hour are permitted per account. The generic request message does not confirm that an email was delivered.

Subscribe or manage a plan

Choose a plan and click **Subscribe** to proceed to checkout. Use **Manage Plan** for existing subscriptions. Review existing plans before subscribing again to avoid unintended duplicate charges.

PLAN	DISPLAYED PRICE	LISTED TRIAL
Weekly	$4.90	None
Monthly	$19.90	1 day
Quarterly	$49.90	3 days
Yearly	$189	5 days

These are the website's listed plan values at publication. Actual eligibility, price and billing terms shown at checkout govern. Trial-eligible plans require a valid payment method; review the next charge date and cancellation terms before confirming.

Access remains locked?

Check sign-in status, then check your plan status. Successful identity verification alone does not activate a paid subscription. Contact support if an active plan is not reflected in your account.

Workflow, FAQ and disclosure

Suggested reading workflow

Verify account access → load a symbol and chart timeframe → review the three core systems → compare 1H / 1D / 1W rankings → open stock details → return to the dashboard for further review.

Why is Ranking Engine still in English?

This is intentional in V5.0. Dashboard language settings do not translate the Ranking Engine page.

Does a score of 99 mean a 99% chance of a rise?

No. Rank Score orders model results. It is not a forecast probability or an expected return. A high rank is not a buy recommendation.

Why can 1W change before the week ends?

Weekly rankings are refreshed after each trading day. The current weekly bar and its model outputs can change until the week is complete.

Why is data missing or unchanged?

Check the selected timeframe and Updated timestamp. Refresh the page if loading fails. A missing ranking snapshot is not replaced with a different timeframe. For email issues, check spam and the account's registered mailbox, then contact support without sharing your verification code.

Risk disclosure and disclaimer

DarriusAI and Model Technical Rankings provide information for market analysis, research and informational display. Nothing on the platform constitutes investment advice, an offer or solicitation to buy or sell securities, or a guarantee of returns.

Scores, signals, sentiment, momentum and other model outputs may change with market conditions, data and timeframes. Information may be delayed, inaccurate or incomplete. Past performance does not indicate future results.

Users remain responsible for their independent decisions, position sizing, gains, losses and related risks. Rank Score is not expected return; rankings are not a buy list.

V5.0 功能更新概览

DarriusAI（拐点猎手）将 Price Inflection、Darrius Mutant 与 Market Pulse 结合，用于观察市场及价格结构。本手册以当前已上线界面为准。

更新项目	当前行为
主控制面板	Risk Copilot 模块及盾牌入口已移除。Market Pulse、主图表和其他风险披露继续保留。
排名命名	排名页统一使用 Model Technical Rankings（模型技术排名）。每个周期仍显示最多 10 只符合资格的股票。
列表字段	排名列表不再显示 Confidence 列及每行数值，其他排名字段保留。
周线排名	排名列表和股票详情页均支持 1H、1D、1W 三个周期。
页面语言	即使从中文 Dashboard 进入，Ranking Engine 页面仍保持英文。

主界面导航

使用主控制面板右侧的垂直功能栏。当前四个入口为：

入口	用途
Market Pulse	查看根据当前主图表计算的市场情绪。
Rank Engine	进入模型技术排名，访问取决于账户权限。
Chart Controls	输入股票代码并选择图表周期。
Account	验证账户，并查看订阅相关操作。

点击图标可展开相应面板。Share 用于复制图表链接，Export 用于导出图表图片。语言菜单切换 Dashboard 已支持的界面文字。

中文指南 / 02

图表与三大核心系统

理解模型输出

- **Price Inflection（价格拐点）**：用于识别价格结构可能发生变化的模型信号。
- **Darrius Mutant（资金动能）**：显示交易动能方向及变化，应结合价格结构观察。
- **Market Pulse（市场情绪）**：显示 0 至 100 的图表衍生情绪分数，以及 Bullish、Bearish、Neutral 状态。

信号	英文名称	含义
eB	Early Buy	早期看多结构预警。
B	Buy	看多模型确认。
eS	Early Sell	早期看空结构预警。
S	Sell	看空模型确认。

这些名称属于模型标签，不是交易指令，也不保证之后的价格变化。

加载股票图表

1. 打开 **Chart Controls**。
2. 输入股票代码，例如 TSLA、AAPL 或 NVDA。
3. 选择图表时间周期。
4. 点击 **Load Symbol**。

主图表支持 **5m、15m、30m、1h、4h、1D、1W、1M**。也可使用主图表上方的快捷周期按钮；可用操作取决于账户权限。

图表周期与排名周期的区别

主图表有八种周期；Ranking Engine 支持 **1H、1D、1W** 三种排名周期。更改主图表周期，不会自动更改另一个排名页面的周期。

中文指南 / 03

模型技术排名与 1W 周线

在 Rank Engine 面板点击 **Open Rank Engine**。Dashboard 入口会检查登录和访问资格。页面对 **US_CORE_500** 股票池进行模型技术排名，并保持英文显示。

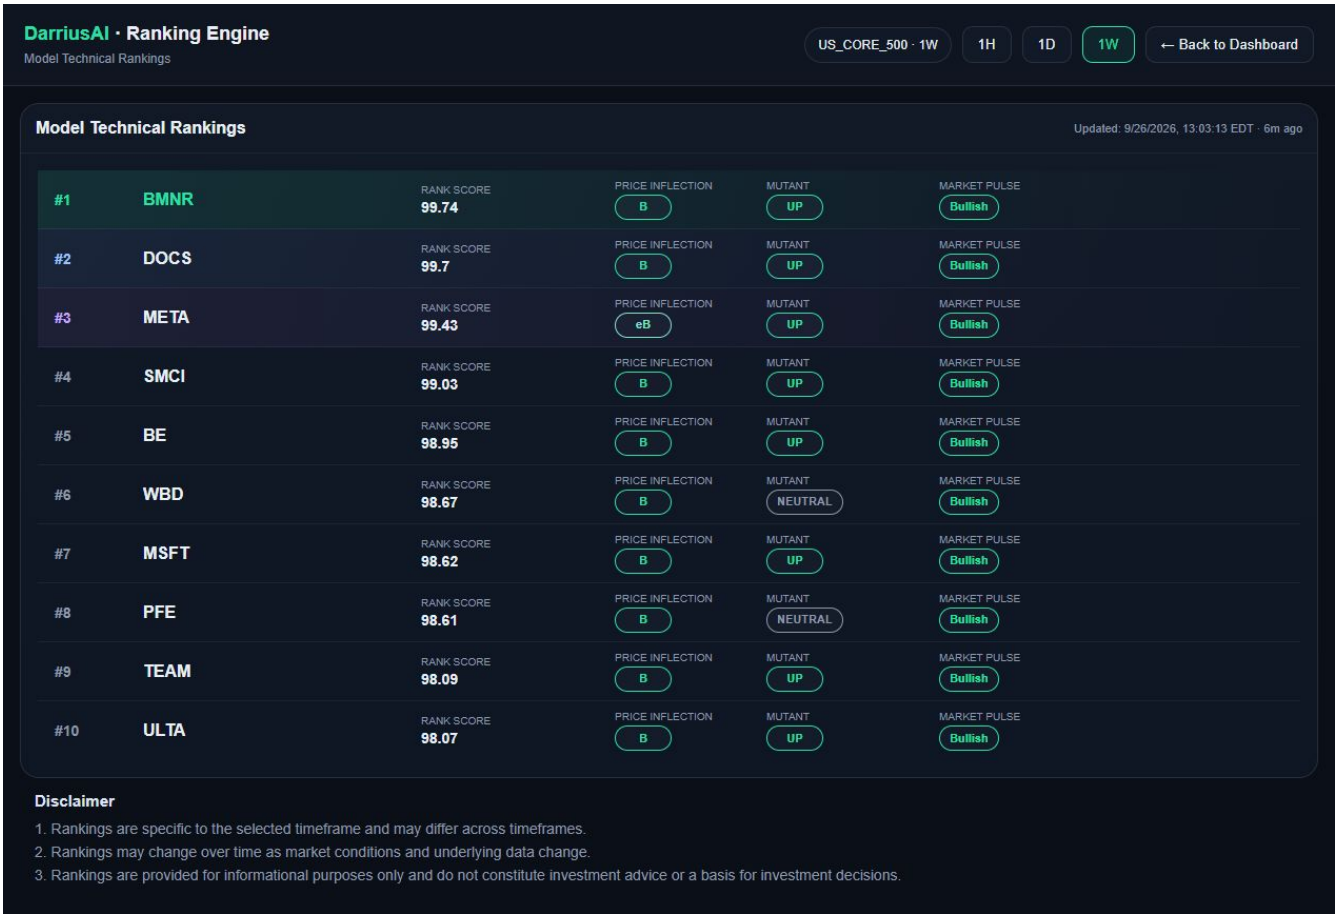

图 1：2026 年 9 月 26 日线上 1W 排名页面。图中股票和分数仅为当时快照，后续会变化。

周期	每根 K 线代表	观察维度
1H	一小时	盘中价格结构。
1D	一个交易日	日线价格结构。
1W	一周	周线价格结构；当前周 K 线可能尚未完成。

点击顶部 1H、1D 或 1W。高亮按钮及 US_CORE_500 后的周期标识表示当前选择。三个周期独立计算，名单、顺序、分数和信号可能不同。

中文指南 / 04

列表字段、详情与更新节奏

列表字段	含义
Rank / #	股票在所选周期内符合资格结果中的排名。
Symbol	股票代码；点击所在行进入详情。
Rank Score	用于排序的模型综合分数，不是预期收益率或盈利概率。
Price Inflection	当前模型信号：B、eB、eS、S 或中性状态。
Mutant	动能状态：UP、DOWN 或 NEUTRAL。
Market Pulse	情绪状态：Bullish、Bearish 或 Neutral。

详情页与返回操作

点击股票行后，详情页沿用列表当前周期。详情页也可切换 1H / 1D / 1W。点击 **Back to Ranking** 后，将返回与详情页当前周期一致的排名列表。

Confidence 已从列表删除；详情页目前仍保留 **Confidence Score**，用于模型一致性参考，不代表盈利概率。

排名更新安排

周期	计划刷新时间
1H	常规交易时段每 15 分钟，首轮在开盘后 1 分钟；收盘后 1 分钟执行最后一轮。
1D	常规交易时段每 60 分钟，首轮在开盘后 8 分钟；收盘后 8 分钟执行最后一轮。
1W	每个交易日收盘后 15 分钟。基于周 K 线计算，不是最近七天涨幅排行榜。

按纽约交易所交易时段安排，并适配提前收盘和休市日。**Updated** 显示实际快照时间；数据获取或计算耗时可能推迟完成时间。周末及休市日通常不刷新。

中文指南 / 05

账户验证与订阅管理

邮箱验证码登录

1. 打开 **Account** 面板，输入 **User ID**。
2. 点击 **Send Verification Code**。
3. 查收账户已绑定邮箱中的邮件。
4. 输入六位验证码，点击 **Verify**。
5. 验证后根据有效订阅或试用状态开放相应功能。

验证码请求通过 User ID 查找系统中已绑定的邮箱。在账户或结账字段填写另一个邮箱，并不会把登录验证码改发到那个地址。

> 验证码有效期为 10 分钟。两次请求至少间隔 60 秒，每个账户每小时最多请求 5 次。页面的统一提示不等于邮件已经成功送达。

开通与管理订阅

选择方案后点击 **Subscribe** 进入结账；通过 **Manage Plan** 管理现有订阅。再次订阅前，请先检查已有计划，避免非预期的重复扣款。

计划	页面标示价格	列示试用期
每周	$4.90	无
每月	$19.90	1 天
每季度	$49.90	3 天
每年	$189	5 天

以上为出版时网站列示的方案。实际资格、价格和扣款条款以结账页面为准。含试用期的方案需绑定有效支付方式，请在确认前核对下一次扣款日期和取消条款。

验证后仍显示锁定?

先确认登录状态，再检查订阅状态。身份验证成功不等于已开通付费订阅。如果有效订阅未反映到账户权限中，请联系网站客服。

中文指南 / 06

使用流程、常见问题与声明

建议阅读流程

验证账户 → 加载股票和图表周期 → 查看三大核心系统 → 对比 1H / 1D / 1W 排名 → 打开股票详情 → 返回 Dashboard 进一步核对。

为什么中文 Dashboard 打开的排名页还是英文?

这是 V5.0 的既定显示方式。Dashboard 语言设置不会翻译 Ranking Engine 页面。

Rank Score 99 是否表示有 99% 的上涨概率?

不是。Rank Score 是模型排序分数，不是概率预测或预期收益率，排名靠前也不是买入建议。

为什么一周尚未结束，1W 排名就会变化?

周线排名在每个交易日收盘后刷新。当前周 K 线及其模型输出在本周结束前仍可能变化。

数据没有显示、没有更新，或收不到验证码怎么办?

先核对所选周期和 Updated 时间，加载失败时刷新页面。缺失的排名快照不会用另一周期替代。邮件问题请检查垃圾邮件和账户已绑定邮箱，再联系网站客服；不要分享验证码。

REFERRALS / ENGLISH / 01

For customers: invitations & bonus days

You can subscribe as an ordinary customer without becoming a referrer. Applying to promote DarriusAI is a separate process. This section explains the customer-facing referral module released in October 2026.

Use an invitation before your first payment

1. Open the invitation link supplied by an activated referrer, or visit darrius.ai/account.html.
2. Register or sign in with your own account. Check the optional referral-code field before checkout.
3. If you have a code, verify it is the intended code. Leave it blank if you have none.
4. Choose a plan and complete Stripe checkout. Return to DarriusAI and check your account status.

> A referral relationship must be accepted before the first qualifying payment. An existing or previously paying account, self-referral, or an attempt to replace an already bound referrer is not an eligible new binding. Do not create duplicate accounts to obtain a reward.

When the extra day appears

An eligible referred new account receives **one bonus subscription day, once**, after its first qualifying successful payment is confirmed and processed. It is not a cash credit, a recurring renewal reward, or the same as a plan’ s advertised free trial. A checkout success page alone does not prove that the bonus has been applied.

STATUS IN REFERRAL CENTER	WHAT TO DO
Pending / Processing	Allow payment and reward processing to complete, then refresh account details. Do not pay again just to obtain the reward.
Granted	The extra day has been applied. Review the subscription dates in your account or subscription management page.
Under review	The subscription or payment needs checking. Contact support with your User ID and payment time; do not send card details.

Open Referral Center to view your linked referral and bonus status. A canceled, paused, changed or otherwise unsupported subscription may need review before a day can be applied. The live checkout and account records determine the actual outcome.

REFERRALS / ENGLISH / 02

Apply, prepare and sign

Open darrius.ai/referral-account.html. Enter your registered User ID, request a code and verify using the latest code sent to the email already linked to your account.

STEP	YOUR ACTION
1. Apply	Select Apply to become an affiliate. Pending review means the application was recorded, not that invitations are active.
2. Read	Select Read and accept affiliate agreement. Choose the appropriate U.S. federal tax status, open the agreement and download the original English PDF.
3. Prepare	Select Prepare agreement details. Provide the required identity, address, notice email and proposed signer information. Entity applicants also provide entity and authorized-signatory details.
4. Save draft	Select the confirmation and save the encrypted draft. This saves information only; it does not sign a contract.
5. Download and sign	Once your personalized document is prepared, select Download prepared file and continue. Read the downloaded PDF, check all details and the agreement number, then enter the matching signer name and confirmations and select Confirm my signature.
6. Await activation	Your signature is followed by company countersignature and eligibility, identity and tax checks. Follow the status in Referral Center and any notice requesting corrections.

Application approval, saving a draft, downloading a document and signing are different steps. None by itself activates an invitation. If the document is unavailable, wait for preparation or contact support; do not sign a document containing incorrect information.

Use **Agreement records and downloads** to see signing status and download the available agreement and evidence bundle. If you arrange qualification directly with the company, follow its documented process; a discussion alone is not approval or activation.

The agreement category follows tax status, not nationality or bank location. If uncertain, obtain qualified advice before choosing. Use the secure form for requested sensitive details; do not email full identity or tax numbers. Saved sensitive numbers are not shown again.

REFERRALS / ENGLISH / 03

Bank and tax details

In Referral Center, open **Bank and tax details**, or visit darrius.ai/payout.html. Sign in first. This information is for commission settlement; submitting it does not initiate a bank transfer.

FIELD GROUP	WHAT TO ENTER
Recipient	The payee’ s legal name and complete address. Keep details consistent with your agreement and supporting documents.
Bank account	Account number or IBAN, entered twice; bank name and full bank address; bank country code, such as US or CN.
Transfer identifier	For a U.S. bank, enter the Routing Number. For a non-U.S. bank, enter the SWIFT/BIC requested by the form. Confirm details with your bank.
Currency	Select the settlement currency offered by the page. The current commission ledger is displayed in USD.
Tax document	Select the applicable form, download the blank PDF, complete and sign it, then upload the completed PDF (maximum 2 MB).

The page offers W-9, W-8BEN and W-8BEN-E. Use the applicable form and its official instructions for your situation; bank country does not establish tax status. This manual describes the upload process and is not a tax-status determination.

Submit and correct information

Confirm the authorization statement and select **Submit for finance review**. Wait for the visible result. If validation fails, correct the identified field or file and retry. Uploaded documents still require review.

For security, saved full bank details are not automatically populated. Re-enter the complete details when updating. A replacement can require a new review; an earlier approval does not automatically cover changed details. Keep an existing uploaded file only when the tax-form type is unchanged and the page permits it.

> Do not upload an empty template as a completed tax form. If a PDF is rejected, follow the displayed error, check its size and readability, and contact support if needed. Do not send bank details, tax IDs or identity documents in ordinary support email.

REFERRALS / ENGLISH / 04

Share links, read earnings, get help

After the required checks and agreement verification are complete, select **Create invitation link** if offered, then **Copy link**. Share the complete link. Historical referral records may require re-review; an old code is not proof of current activation.

Read the ledger

Binding and commissions shows anonymous account IDs, first-payment information and commissions in USD. Customer names and emails remain private. Registration alone earns no commission.

ITEM	USER-FACING MEANING
Commission rate	The current agreement specifies 30% of qualifying Net Subscription Receipts. Read its definitions and adjustment rules; this is not 30% of every checkout total.
Commission period	Each qualifying customer has one four-calendar-month period starting with the first qualifying payment. Cancellation, reactivation or plan changes do not restart it.
Available	Recorded commission available for settlement review; it is not confirmation of money in your bank.
Settled	Settlement has been recorded. Reconcile it with your bank and contact support about any discrepancy.

Refunds, taxes and credits can affect commission. The executed agreement and required checks govern entitlement and payment timing; this guide does not change those terms.

Responsible sharing

Disclose your commission relationship and any required ownership relationship. Follow the agreement’ s promotion rules. Do not promise investment returns, give trading instructions or claim to represent the company.

Common problems

No code: check agreement, identity and tax status.
Login/payment delay: refresh and use the latest code on the official HTTPS site. Do not subscribe again to fix login.
No submission result: check the form message and required fields; sign in again if expired.

Contact support@darrius.ai with your User ID, page name, time and a redacted screenshot. Never include passwords, verification codes, full bank/card details or full tax/identity numbers.

推荐人模块 / 中文 / 01

普通用户：使用邀请与领取赠送天数

普通用户可以直接订阅，无须申请成为推荐人。推广 DarriusAI 并获得推荐佣金，需要另行申请。本章介绍 2026 年 10 月发布的推荐人模块。

在首次付款前使用邀请

1. 打开已激活推荐人提供的完整邀请链接，或进入 账户与订阅页面。
2. 注册或登录自己的账户，在结账前核对可选的推荐码栏。
3. 有推荐码时确认填写正确；没有推荐码可以留空。
4. 选择订阅方案并完成 Stripe 付款，返回网站后查看账户状态。

> 推荐关系需要在首次符合条件的付款前成功绑定。已付费或曾经付费的账户、自我推荐、替换已绑定推荐人的请求不符合新绑定条件。不要通过重复注册领取奖励。

额外 1 天何时到账?

符合条件的被推荐新账户，在首次符合条件的成功付款得到确认并处理后，可获赠 **1 天订阅，每个符合条件的账户仅一次**。这不是现金抵扣，也不是每次续费都赠送，与订阅方案自带的免费试用不同。仅看到付款成功返回页，不代表奖励已发放。

推荐人中心显示的状态	应如何处理
等待发放 / 正在处理	等待付款及奖励处理完成后刷新账户资料。不要为了领取奖励重复付款。
已发放	额外天数已应用；可在账户或订阅管理页面核对订阅日期。
待人工核对	付款或订阅情况需要核查。向客服提供用户 ID 和付款时间，不要发送银行卡资料。

进入 推荐人中心 查看已绑定推荐关系与额外订阅天数。订阅已取消、暂停、发生变更或不支持自动处理时，可能需要核对后才能发放。最终结果以实际账户及付款记录为准。

申请推荐人并完成协议签署

打开 darrius.ai/referral-account.html，输入已注册的用户 ID，获取发送到已绑定邮箱的最新验证码并登录。

步骤	用户操作
1. 提交申请	点击“提交推荐人申请”。“等待审核”表示已登记，并不表示邀请已启用。
2. 阅读协议	点击“阅读并确认推荐人协议”，按美国联邦税务身份选择类别，打开对应协议并下载英文原文 PDF。
3. 填写资料	点击“填写签署前资料”，填写身份、完整地址、合同通知邮箱及拟签署人等必填项；实体申请还需填写实体及授权签署人资料。
4. 保存草稿	勾选确认并点击“加密保存资料草稿”。这里只保存资料，不会完成签署。
5. 核对并签署	专属文件准备好后，点击“下载待签署文件并继续”。阅读完整 PDF，核对资料和协议编号，再输入与资料一致的签署人姓名，勾选确认并点击“确认本人签署”。
6. 等待激活	本人签署后仍需公司会签、资格及身份、税务核验。查看推荐人中心状态，并按通知补充或更正资料。

申请通过、保存草稿、下载协议和签署协议是不同步骤，单独完成任意一步都不代表邀请已激活。提示文件尚未生成时，请等待准备或联系客服；资料错误的文件不要签署。

点击“协议签署记录与下载”可查看签署状态，并下载可用的协议与签署凭证。选择人工洽谈审核方式时，请按公司确认的流程办理；口头洽谈本身不等于通过或激活。

协议类别依据税务身份，不依据国籍或银行所在地。不确定时，请先咨询合适的专业人士。完整证件及税号只在安全表单要求的位置填写，不通过普通邮件发送。已保存的敏感号码不会再次完整显示。

推荐人模块 / 中文 / 03

提交银行收款与税务资料

在推荐人中心点击“银行收款与税务资料”，或打开 darrius.ai/payout.html。请先登录。资料用于返佣结算，提交不会直接发起银行转账。

项目	填写内容
收款人	收款人或公司的法定名称、完整地址；与协议和相关证明资料保持一致。
银行账户	银行账号或 IBAN 需输入两次；填写银行名称、完整银行地址，以及 US、CN 等银行国家代码。
银行识别号码	美国银行填写 Routing Number；非美国银行按表单填写 SWIFT/BIC。请向收款银行确认正确资料。
币种	选择页面支持的结算币种。当前佣金账本以 USD 显示。
税务文件	选择适用税表，下载空白 PDF，填写并签署后上传完整 PDF，最大 2 MB。

页面提供 W-9、W-8BEN 和 W-8BEN-E。请依据自身情况及税表官方说明选择；银行所在国家不决定税务身份。本手册说明操作方式，不代替税务身份判断。

提交、补正与重新审核

勾选资料确认及结算授权后，点击“提交财务审核”，等待页面明确显示结果。若校验失败，请根据提示更正字段或文件后再提交。上传成功仍不代表税务审核通过。

为保护账户，已保存的完整银行资料不会自动回填。修改时需要完整重新填写；更新后可能需要重新审核，旧审批不自动覆盖新资料。仅当税表类型未变且页面允许时，才可保留原上传文件。

不要把空白税表当作已完成文件上传。PDF 被拒绝时，先查看提示并核对大小、内容可读性；仍有问题请联系客服。不要通过普通客服邮件发送银行账号、税号或证件文件。

推荐人模块 / 中文 / 04

分享邀请、查看佣金与常见问题

所需核验及协议验证完成后，如出现“生成邀请链接”按钮，点击生成，再点击“复制链接”分享完整地址。历史推荐人资料可能需要重新审核，旧推荐码不代表当前资格已激活。

如何阅读账本

“绑定与佣金”区域显示被推荐账户的匿名编号、首次付款情况、美元佣金金额及状态，不展示对方用户名或邮箱。仅注册但尚未发生符合条件的付款，不会产生佣金。

项目	说明
佣金比例	现行协议约定按符合条件的净订阅收入计算 30%。须结合协议中的定义及调整规则，并非所有结账总额都直接乘以 30%。
佣金期间	每位符合条件的新客户，自首次符合条件的付款起有一次四个日历月的佣金期间。取消、恢复或更换方案不会重新起算。
可结算	佣金已入账，可进入结算核对；不等于银行已收到款项。
已结清	结算已登记。请与银行流水核对；存在差异时联系客服。

退款、税费、抵扣及其他调整可能影响佣金。结算依已签署协议及必要核验办理；佣金资格、金额及付款时间以正式协议为准，本手册不修改合同条款。

分享时应说明什么？

明确说明他人通过你的链接订阅时，你可能获得佣金。遵守协议的推广要求及适用的持股关系披露。不要承诺投资收益，不将模型信号说成交易指令，也不要自称代表公司。

常见问题

没有邀请码：检查协议、身份和税务核验是否完成。
付款或登录状态未更新：等待处理后刷新；使用最新验证码和正式 HTTPS 网站，不要靠重复订阅解决登录问题。

提交后页面不变：查看表单附近提示，核对必填项和文件；会话过期时重新登录。

联系客服：support@darrius.ai。提供用户 ID、页面名称、发生时间及已遮挡敏感信息的截图。不要发送密码、验证码、完整银行或信用卡资料、完整税号或证件号码。
